

PRODUCT LAUNCHES

BLAST OFF

The antigravity antics of the **Raspyni Brothers** will blast your next product launch into the stratosphere. Their comedy and juggling acts are the perfect illustration of the type of teamwork and calculated risk-taking necessary to bring a new product to market.

Granted, they weren't there when the first Model T rolled off the production line, but very few performers have had as much experience as the **Raspyni Brothers** when it comes to these very special events. Their time-tested skill lets them seamlessly blend a product's key features and selling points into their one-of-a-kind comedy routines. And of course, nothing motivates a sales force like seeing a member of senior management prove their commitment by being part of a **Raspyni Brothers'** bullwhip or knife throwing routine.

Aim high! Fuel and ignite your next product launch with two of the comedy world's brightest stars.

You two performed a miracle
at our company's most
important event of the year.
